New Workstation Table

Item	Picture Of Item	Reason for Selection
Desk		The reason I selected this desk is because the desk has an adjustable height so the employee can stand and work.
Chair		The reason I got this chair is that this allows the back to be in the correct posture and allows airflow through the back of the chair to the employee's back
Input A		This mouse works like a normal mouse and it doesn't put strain on the wrist and cross the bones in your forearm. When you are using a normal mouse, the bones are crossed in the forearm, so this mouse prevents that and helps ergonomics.
Input B		This keyboard is designed for your hands, so your hands won't be in weird positions to press certain keys.
Output A		It's a high-quality monitor for a good price.
Output B		These pair of headphones are cheap and high quality and they connetct to Bluetooth
